

Astronomical spectroscopy  
for research, industry, education and leisure.

## Newsletter 2020 #2

### Web online Workshops

The time of confinement has introduced us to means of communication that allow a large number of people to participate in online meetings. These tools are particularly suited to our amateur astronomical community. So we propose you to start a cycle of online workshops; a great opportunity to share our passion and learn together.

F. Cochard, May 2020

**Friday 29 may at 17H UTC**

## Demetra : Spectral calibration

Workshop in English only 

**By François Cochard and Nicolas Durand**

Practical workshop, to understand Automatic calibration with Demetra software.

**Saturday 30 may at 16H UTC**

# UVEX III

Workshop in French only 

UVEX is a new spectroscope developed originally in DIY mode. The project initiators will present them to you the concept and the current state.

Moreover, several variations will be presented, including the one from Shelyak Instrument, currently under development. Workshop led by **Christian Buil, François Cochard, Pierre Dubreuil, Philippe Egea, Olivier Garde, Bertrand Guégan, Jean-Loup Lemaire, Alain Lopez, Jean-Luc Martin, Christian Revol, Stéphane Ubaud.**

**Sunday 31 may at 16H UTC**

## All about the ALPY 600

Workshop in French only 

**By Olivier Garde and François Cochard**

with the participation of **Etienne Bertrand** and **Vincent Lecocq**

The Alpy spectrograph makes it possible to take faint spectral targets. After a presentation of this spectrograph and its several modules, two amateur astronomers using the Alpy 600 will share their observations.

**To register**

## All web online workshops are free.

When registering, please **indicate your e-mail** and not your name. (to give you the link to the video conference).

Caution, each conference is **limited to 100 people**.

On the following link, you can register for one or more workshops (**check the box of the workshop you want**).

A link is sent to each participant to follow the workshop taking place via the zoom video conferencing site. You can test your browser before the conference with the plug-in that will be downloaded automatically for your browser.
